

Messengers of Love

2014 Programs and Services Goals

- **Holiday Care Package Program:** Give Holiday Care Packages to over 4700 orphaned and poor children, over 1000 poor and leper adults in Vietnam, and children from 2 orphanages in Cambodia and India. These packages are designed to provide essential necessities that are packaged and delivered in such a way as to make the recipients feel special. The packages include daily necessities such as new clothes, hygiene items, towels, and nutritious food, as well as a small toy and candies for the children. The packages are delivered in a festive way with holiday spirit and an emphasis on God's love for them.
- **Support for a Child's Education Program:** Provide need-based assistance for tuition and school supplies to 160 students. These are poor but bright students whose family circumstances have created major difficulties in pursuing an education. Once a student is accepted into our program, we are committed to send them all the way through college. \$150 per year will keep them in school, and give them the hope that they need to realize their dreams.
- **Computer Technology and English Training Program:** Implement MOL's effort in empowering and educating our children, both locally and abroad through MOL's upcoming "Computer Technology and English training" program. MOL's youth group MOLY has already lined up 5 local high school graduates who will travel to Vietnam to teach at 3 different orphanages. It will give our children an opportunity to open their hearts to those in need, and will provide the orphans with training that will offer them a brighter future.
- **Invest in a Child Program:** Provide funding for the tuition, boarding cost and food for 7 orphaned and poor students whom MOL has sponsored and followed for many years in the "Invest in a Child" program. These are highly motivated students who are a select few and are given the best possible educational experience. They are currently in boarding schools in Saigon and Hue, attending private Vietnamese American (Nam My) high school (free or discounted tuition given by the school) and Universities.
- **Clean Water System:** Build 5 clean water systems for 5 villages of ethnic minority people (người Thượng) in the mountains of Kontum. These people live subsistence lives and their needs are often ignored by the rest of society. Each system will provide access to clean water and a sanitary place to gather and wash. Each system will serve a village of about 200 to 300 families.
- **Home for a Poor/Leper Family:** Build 5 homes for 5 leper or poor families. The lepers are out-casted by society; some have lost their arms or legs due to the disease. Many live in rural villages without a home or safe shelters. \$1200 will give a leper or homeless family a warm and safe place to live and they will be forever grateful.
- **Sponsor a Child:** Monthly sponsorship of 120 orphaned children and lunch for 70 poor village elementary children so they can have nutritious food to eat, books and uniforms for school, and new clothes to wear for Tet. Only \$150 per year will give the child a future and what they need to grow up a healthy child.
- **Special Projects:** Implement special need projects such as renovating schools and orphanages to provide a safe and sanitize environment for the children.
